SAP CONSULTANT

POSITION: INTERN

Our DECP Program is designed for talented, passionate graduates who are looking to join an agile world leader and are ready to use the power of technology to deliver mission-critical IT services that move the world. Our customers entrust us to deliver what matters most. We believe every graduate is unique and our aim is to help you build a solid foundation in your professional career, apply your learnings, and discover new possibilities.

In this role, you will collaborate with functional consultants, business analysts, and end-users to gather requirements and translate them into technical specifications. You will be responsible for developing, testing, and deploying SAP programs, including reports, interfaces, conversions, enhancements, and forms (RICEF). Additionally, you will ensure that all developments adhere to SAP best practices and organizational standards.

Requirements:

- Newly graduated students from universities specializing in Information Technology, Logistics, and
- Finance/Accounting or other relevant fields.
- Oriented to become a professional SAP Consultant.

• **Technical Skills:**

o SAP ABAP: Basic programming skills in C#, Java, or similar languages.

o SAP SD: Understanding of logistics and sales workflows.

o SAP FI: Familiarity with financial and accounting principles.

• **English** - Upper-Intermediate level above with fluent communication skills.

Participant responsibilities:

• Attend training courses on SAP software solutions in accordance with the schedule provided by DXC.

• Engage in learning and practical exercises through simulated projects or on-the-job training.

• Receive supplementary training in soft skills and work management.

• Participate in the program on a full-time basis.

• Execute tasks as assigned by the Project Leader.

• Adhere strictly to company policies.
